(727) 215-7060

10th grader at Pinellas Park High School promising consistent hours, leadership, responsibility and a forward thinking attitude.

Areas of strength include:

- Leading
- Consistency
- Professional Bearing
- Versatility
- Aptitude
- Commitment

EDUCATION

Pinellas Park High School | 2023-Present

Currently I am enrolled at Pinellas Park High School, an application required magnet school that offers a first responding program educating students about life saving services along with offering firefighting classes and an opportunity to join the Florida Public Service Association (FPSA). This program requires a strong sense of leadership and teamwork to succeed in any fashion and will make sure you meet that requirement through many activities such as hands on work, teamwork exercises and opportunities to lead.

I've won various awards for my performance in first response. For example, I have recently won the title of best first responder of the freshmen year, an award in Search and Rescue, awards in Honor Guard, and attended a Florida Public Service Association meeting, that first response magnets from around the state compete and show off their skills and help lead my team to win the championship. I have been voted into the seats of Secretary of the schools FPSA program, and as Vice President of the School Government Board of 2027.

FPSA is a team of selected first responders that show their passion for the field. This team every week further hones into their skills and knowledge. This team strives to be the best and proves it at the yearly FPSA conference held in Orlando. First responder magnets from all across the state meet to open up networking opportunities and prove their skills within the space. 2024 was my first year of competing and our FPSA team won the competition..

Queen of All Saints Catholic Academy Middle | 2022-2023

My education at Queen of All Saints Catholic Academy instilled strong work ethics and taught me to pursue excellence in both academic studies and personal discipline.

Oak Hall Preparatory Academy | 2015-2022

Oak Hall School is a college preparatory school, equipping students with a foundation of learning and excellence. I heavily credit this school with teaching me how to comprehend at a high level. This school very much helped me in adapting to any type of new environment.

Fire Cadet Program | 2023-Present

The Fire Cadet Program is held by various Fire Departments to provide education and hands-on experience for high school students interested in firefighting and Emergency Medical Service. Cadets often volunteer for the city and take part in the annual Christmas Parade. Further volunteering information can be provided on request
